Sustainability Targets and Working Groups

**Water & Green Infrastructure** - 100% of land has active organizations and quality watershed plans in progress by 2025 and plans completed by 2030 from a 2010 baseline.

**Waste and Materials** - Reduce the tonnage of material going to landfills from our watershed by 30% by 2030 over 2015 baseline.

**Energy & Emissions** - Reduce greenhouse gas emissions by 28% by 2025 and 80% by 2050 (2005 baseline)

**Transit Oriented Development** - By 2023, increase the number of destinations such as jobs, residences, and other resources or amenities within a ¼ mile or 5 minute safe and accessible walk by 30% at 20 stations from a 2018 baseline.

**Food Access** - By 2027, reduce by half the number of healthy food priority areas from a 2018 baseline.

**Biodiversity** - By 2025, 100% of counties in the combined statistical area of St. Louis are using the Regional Biodiversity Atlas (from a 2018 baseline) to actively guide their planning, policies, and practices in ways that increase habitat connectivity, ecological functionality, and quality of life for all.
Campaign for a Prosperous, Healthy, Vibrant St. Louis Region

Stay tuned for your opportunity to support our targets for the St. Louis region.

Email Me When I Can Show My Support
Access to Healthy Food

Target Goal: By 2027, reduce by half the number of healthy food priority areas (from a 2018 baseline). A healthy food priority area is defined as low-income census tracts where a majority of the residents are low income, lack vehicle access, are a certain distance from a healthy food outlet and the average availability of healthy food in all food stores is low.
