OneSTL – Role in Regional Collaboration

- develop a greater understanding of each other’s work and goals.
- identify common issues and challenges and develop solutions.
- bridge gaps in knowledge, capacity, action, and policy across sectors and jurisdictions.
- exchange information and expertise.
- ensure food issues are adequately represented in OneSTL resources: Resources library, the Toolkit, the Marketplace.
- Contribute to OneSTL’s regional goals and metrics, and to the regional picture of St. Louis.
- avoid funding competition and expand funding options…….

REGIONAL SUSTAINABILITY

OneSTL Network

- Funding Network
- Technical Assistance Network
- Leadership Network
- Coordinating Team
- Evaluation Team
- Communications and Engagement
OneSTL – Role in Regional Collaboration

- What technical assistance or capacity building does your organization provide?

- What technical assistance or capacity building are you aware of that other organizations provide?

- Do you see any gaps in technical assistance or capacity building that OneSTL can fill?
