INDICATORS

The OneSTL Performance Indicators measure the St. Louis region's progress toward sustainability. The Indicators are organized by the plan's nine theme areas and reflect the goals and objectives of OneSTL. Analysis of the indicators will better equip the region to make data-driven decisions, set priorities, evaluate the effectiveness of the plan, and revise the plan to achieve success.

The Big Picture

The performance indicators are listed below along with the following for each:

- **Desired Trend**: Reflects the vision, goals, and objectives of OneSTL.
- **Baseline Data**: Provided for the "baseline year", which is the year the OneSTL planning process began (2010) or the closest year for which data is available.
- **Current Data**: Provided for the most recent year available. Indicators that do not have data updates since the baseline are marked with a dash (-) to indicate that data is not yet available.
- **Current Trend**: Color coded to reflect the direction of change from the baseline to the current data.

<table>
<thead>
<tr>
<th>Color</th>
<th>Current Trend Type</th>
</tr>
</thead>
<tbody>
<tr>
<td>Current Trend is in line with the Desired Trend</td>
<td></td>
</tr>
<tr>
<td>No change from baseline to current year or no statistically significant change</td>
<td></td>
</tr>
<tr>
<td>Current Trend is the opposite of the Desired Trend</td>
<td></td>
</tr>
</tbody>
</table>

The Details

Click on the name of an Indicator to get more information, including:

- **Why is it important?**: An explanation of why we are tracking the indicator and what it means.
- **How are we doing?**: A more detailed look at how the St. Louis region is performing, how it has changed over time and how we compare with other regions.
- **Toolkit Solutions**: Links to relevant OneSTL tools that are in use or can be used to help the region improve on this indicator.
- **OneSTL Objectives**: Links to the OneSTL plan objectives and related strategies that are most relevant to this indicator.
- **Research and Resources**: Links to OneSTL reports and other resources that provide greater understanding of the indicator and the underlying issues.

Keep checking back. The website will be updated regularly with new data as it becomes available. Additionally, the OneSTL Report to the Region will be released annually to provide updates on the region's progress on the performance indicators and updates from OneSTL Network Members on what they are doing to make the St. Louis region more sustainable.
